SUMMER ENGAGEMENT PROGRAMME

Date:04.05.2021

Dear Parents,

The year 2020 has been tumultuous for all of us while 2021 has not been a better situation either for mankind. Under these circumstances, the most affected have been our young learners with their foundation studies for higher levels of school and college being impacted. The last year has had us connected with them through our virtual classes. There has been a lot of learning for us as well in turn and this year, we need stronger partnering with our parents to ensure the future of our young learners is secure. In order to make the learning more effective and meaningful, we have started this summer programme for our children with a three weeks' fun-filled learning activity. As a parent support we have listed the objectives behind each task so that you as the parent and we as teachers are connected and are clued in what we are doing together. The **Summer Engagement Programme** for the children contains activities which kindles the child's intellect and also reinforces the content already learnt.

As you are aware, we are using Upswing Classroom portal for our online session for the academic year 2021-22 as well. The students can use their login ID's and access these sessions. The planner will be shared with you. When the students complete all the sessions, we expect them to save all their assignments and work in a folder with the name of the student and grade and submit it to us on the day mentioned. Thereafter we shall scrutinize the work, make accurate assessments and would like to appreciate the efforts of the children digitally with e-certificates.

The sessions begin from 05.05.2021 and goes on till 28.05.2021.

Look forward to your support.

Regards,

Dr.S.Jayashree Muralidhar
Principal
